

Shape Puzzle

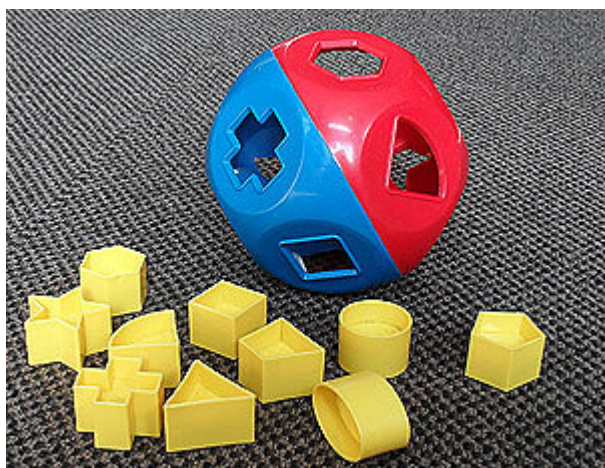

Annotation

Sarah is becoming aware of shape and space as she perseveres in manipulating the pieces to solve this puzzle.

Problem: Shape Puzzle

The teacher shows the student this puzzle and poses this problem.

Can you put the shapes into the holes that match?

Student response

Sarah completes the puzzle after making a number of attempts to find the correct hole for each shape. She begins by appearing to randomly select a hole in which to try a shape but then turns the container apparently seeking a 'more likely' hole.
